

Standard Sizes

Wire Diameter (.120") - Straight Sections

CM10	Width	Height	Length
	2"	2"	1'
	4"	4"	2'
	6"	6"	5'
	8"	8"	8'
	12"	10"	

Wire Diameter (.187") - Straight Sections

CM20	Width	Height	Length
	6"	2"	1'
	8"	4"	2'
	12"	6"	5'
	18"	8"	
	24"	10"	

Wire Diameter (.250") - Straight Sections

CM30	Width	Height	Length
	8"	2"	1'
	12"	4"	2'
	18"	6"	5'
	24"	8"	

*All prefabricated junctions are 3' x 3'

**Custom sizes and colors available on request

Wiremaid thanks its sales partners for more than 50 years of appreciation for and loyalty to our products.

About Wiremaid U.S.A.

Since 1950, Wiremaid has designed and fabricated metal and wire products for commerce and industry. Wiremaid is a leader and innovator in the design and manufacture of safety and protective guards for lighting fixtures, fans, wire cable trays and equipment.

Our innovative products are designed for ease of installation. Dedicated to service and excellence in workmanship, Wiremaid continually strives to be at the vanguard of its industry.

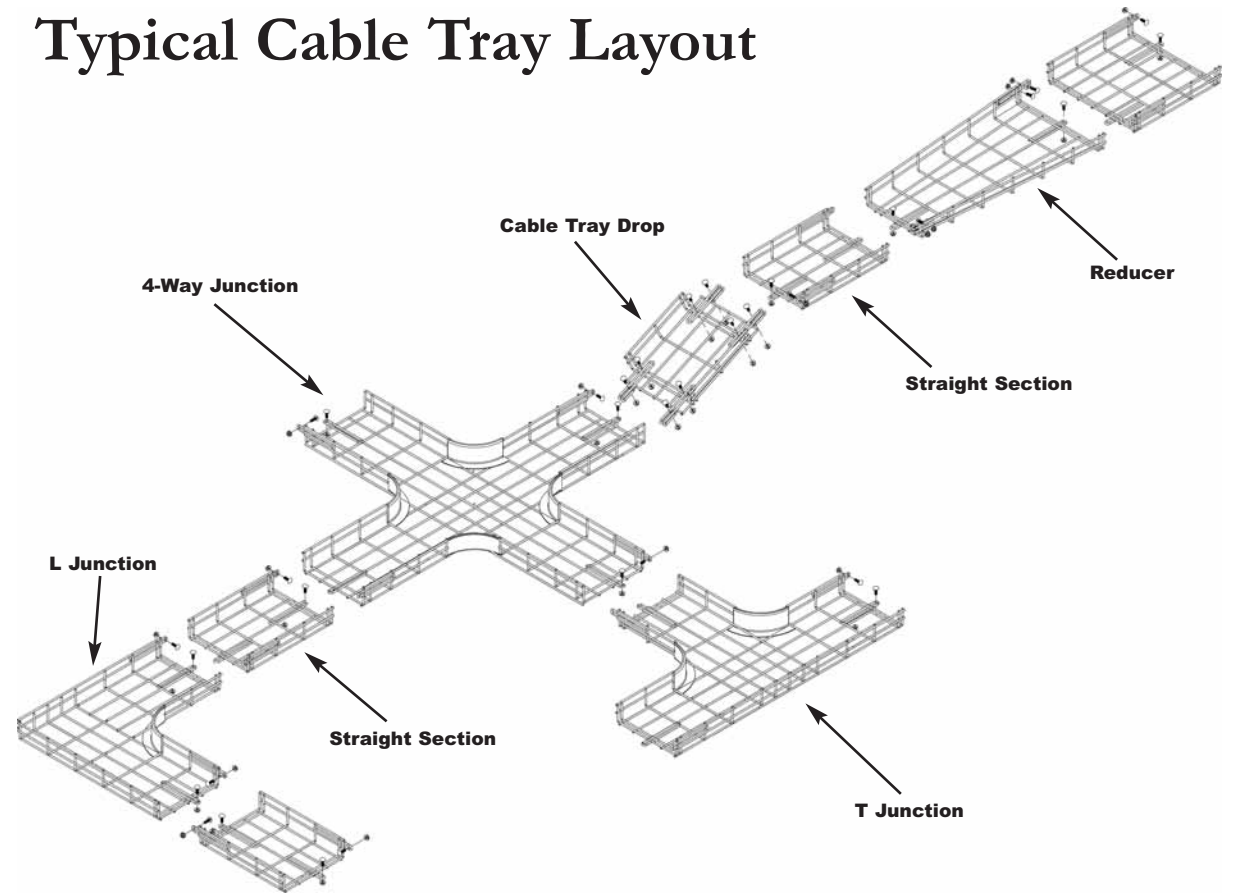

PRO-10 is an award-winning Cable-Mgr. wire cable tray made by the Wiremaid Division of Vutec Corporation. It's a patent-pending one-tool system that saves money and 50% or more installation time.

The One Tool System

- Requires NO bending or cutting; ready-made “4-way”, “T” and “L” shaped junctions
- Conforms to the National Electric Code, UL Classified
- Acts as a continuous ground conductor; no grounding splices
- Adapts to difficult architectural designs to accommodate changes in direction and elevation of cable runs
- Cuts installation time up to 50 percent
- Provides strength, rigidity without additional hardware; has smooth edges
- Manufactured in an array of protective, powder-coated, colored finishes to minimize corrosion
- Featured in light or heavy duty product styles
- All support hardware available
- Powder coating is standard finish
- Custom sizes available

Typical Cable Tray Layout

Wiremaid Products Division has developed a unique cable tray system that conforms to the National Electric Code requirement for continuity and grounding. PRO-10's* unique design provides continuity between adjacent trays without the necessity of splices or additional hardware.

PRO-10 provides strength, rigidity, and corrosive protection in conjunction with an array of finishes and colors.

*Patents Pending
